

Burning Down

Kula Shaker

Well I'll tell you my tale and I tell no lies
I woke up one day and I opened my eyes
I saw the fields and I saw the town
The whole god almighty world was burning down
Burning down

Well I used to have a job but now I'm broke
And there's nothing so queer as the strangest folk
I seen Women and Children and Men in chains
All crying together in the burning flames
Burning flames

But I was told about forgiveness
One love, the only truth
I am here to bear witness
I surrender unto you

I'm your long lost son -
But I've found my way
And I hope it's not too late
'Cause I feel the fiery flames

I'm burning down
Burning down
Burning down
Burning down

I see no water but I fear I'll drown
I see no fire but I'm burning down
It's just a trick of the light, messin' with my mind
Then I done woke up and I opened my eyes
It was just a devil in a cheap disguise

But I was told about forgiveness
One love, the only truth
I am here to bear witness
I surrender unto you

I'm burning down
Burning down
Burning down
Burning down

(Burning down) Burning down but there ain't no fire
(Burning down) Burning down but there ain't no heat
(Burning down) Build me a boat and a body of water
(Burning down) Bring his blood and the bread to eat
