F-Bombs

Kula Shaker

We gonna sing a song about the wars going on
About the wars going on and on and on and on and on

The war machine, you know what I mean
It's a very bad scene...

And you know, there's only one thing worse than dying in the war
And that's paying for some other poor bastard to go die in a war

I think it was Mahatma Gandhi
Or it might have been Groucho Marx, who said
In one of their more lucid moments:

Fuck war – cause their taking the peace
Fuck war – and we all getting fleeced
Fuck war – better empty your pockets
Well who else is gonna pay for the Tomahawk rockets?
Fuck war – and they're trying to prolong it
Fuck war – but the people don't want it
Fuck war – yes they're taking the peace
Fuck war – (that's right everybody) and we're all getting fleeced
Fuck war – fuck tax, fuck the government men
Fuck war – everybody knows that the system's bent
Fuck war – fuck left against right, fuck black against white
Fuck war – we are all one people walking into the light
Fuck war – fuck the CRT, fuck the KKK
There's ain't no fucking difference between the two anyway
Fuck war – fuck the United Nations
Central fucking banks and their hyper inflation
MI6 up to their tricks
All you mother fuckers you can all suck a dick
Fuck war!

Fuck war – fuck News 24, fuck the tv scene
Pushing war propaganda and poisonous dreams
Fuck war – yeah, God save the King
He's just another puppet dancing on a fucking string
Fuck war – bring the boys back home
It's the biggest shit show since the fall of Rome
Fuck war – fuck the whole clown show
Fuck 'em all big and small, yeah they all gotta go
Fuck war!
