

Figure It Out

Kula Shaker

Sri krishna sankirtanam

Will we find a way that we all see
Way beyond the lives of you and me
Way beyond those cities into the sky
Will we find a way that we all see

Are we alone here facing the world
Trying to figure it out
Are we alone here facing the world
Trying to figure it out
When you know it just can be sure

Sri krishna sankirtanam

What for love of God are we to do
Wearing out disguises
Through and through
Understand the qualities of time
Synchronize your watches to the sky

Are we alone here facing the world
Trying to figure it out
Are we alone here facing the world
Trying to figure it out
When you know it just can be sure

Figure it out maybe I'll never be sure
Figure out singing the names of the Lord
Yeah you can riff on your ideas
For another million years
But I'm running out of time
And you keep changing your mind
See the only thing that's real
Are the feelings that I feel for you
So come on and love me for sure

Sri krishna sankirtanam
