

Holy Flame

Kula Shaker

Day and night go passing by
I wait by the over-road sign
Hitch hiking across the mountain
To get back to you
Sometimes I scream till I'm black and blue
Sometimes I dream stars in the stream

I ran away and joined the traveling fad
It was just a door way into no where
I rush on the bus, you have left on the train
I'm stuck in places where we played
When we were fine and we both had time

In my darkest days
I see through the haze
See your holy flame
I've been found

As the clothes came flying
You could read my mind
You're my holy flame
You're my fire

Sometimes I think we can't be fixed
Meet me here with the sense of the lunatics
Slow bleeding and gently weeping
Watching the rain
But a wise man say that pain
And we can quite same
And I guess it's ok

And so this road keeps rolling on
Like the redneck robin sings his song
I'm blind but in my mind I got pictures of you
And all the stories, they were true
And our romance began with a dance

In my darkest days
I still see your smile
See your holy flame
I've been found

As the clothes came flying
You could read my mind
You're my holy flame
You're my fire

You're my holy flame
My holy flame
My fire
