

Infinite Sun

Kula Shaker

We are one
The infinite sun
Fly like an eagle

She changes everything she touches
And everything she touches changes
She changes everything she touches
And everything she touches changes
And everything she touches changes
And everything she touches changes

Ch-ch-changes

We are gonna be a menacing will
We are gonna find the thing that's real
Out of the darkness, beyond the void

We are one
The infinite sun
Fly like an eagle

She changes everything she touches
And everything she touches changes
She changes everything she touches
And everything she touches changes
And everything she touches changes

It's hard way to say her name
Everything she touches ch-ch-changes
