

## Something Dangerous

Kula Shaker

I'm a-living on the inside, that's the other side of me  
I'm a-flowing like a river from the mountains to the sea  
These are crazy days for certain nothing's certain, to be sure  
And the clock is ticking faster than it ever was before

Wooh, oh, oh, oh I wish that I could catch a drop of sleep  
I am not ashamed to weep, cause I'm stoned, stoned, stoned  
I've been stoned just like I never thought I could  
Seeing faces in the dark, my name written in the stars  
And there's something dangerous inside of me, inside of me

She was posing for the camera, for the wicked witch's toad  
Who forgot to make her dinner, so she threw it in the road  
When a chocolate-coloured vision, painted armour shining bright  
Plucked her up out of the gutter and then galloped out of sight  
...

She said wooh, oh, oh, oh, "I would trade my kingdom for a horse  
But only if it's yours," cause I been stoned, stoned, stoned  
I been stoned just like I never thought I could  
Seeing faces in the dark, my name written in the stars  
And there's something dangerous inside of me, inside of me

I am trailing  
Clouds of glory  
Roaming far from home  
So desperate  
Yet delightful  
And so unknown, so unknown

Something dangerous...

Are we standing on the outside, or on the outside standing in  
For another cheesy mutha with an automatic grin?  
I don't need to pay the piper, he's a real good friend of mine  
He said God is just a joker and the comedy's divine

Singing hey, hey, hey, I've a feeling I've been dreaming here before  
Like what I been searching for, cause I've been stoned, stoned,  
stoned  
I been stoned so bad, I never thought I could  
But my heart is not afraid, we are happy and insane  
Yeah there's something dangerous inside of me, inside of me

Well, if love is all I need, you're the answer to my dreams  
Yeah there's something dangerous inside of me, inside of me
