

More Mess

Kungs

I'm so, so done of waiting
Got my glory days inside
Got my glory days inside, oh yeah
Gotta find my fears and face them
Get day back on my side
Get day back on my side, oh yeah

The hard times have been the longest battle for me
My freedom's inside, it's time to take what I need

More mess on my thing
More mess on my thing
More mess on my thing
More mess on my thing
More mess on my thing
More mess on my thing
More mess on my thing

Yeah, I've been down in the deep end
Uh, but now I know how to roll
Went through the struggle for a reason
Can't get in, they got a foot against the door
Tired of the tension, tired of the waiting
Tired of the dayshift, uh
I've been tripping in the matrix, time for me to face it
Tying up my laces, finna get wild
So shine and get shine
We can't imitate and so am I
Better make the mistakes, it's go time
Get up off that thing, it's alright
I keep bleeding, I'ma teach you to heal up
Join the force you know 'cause you can't beat us
I'ma seize the moment that I live
But I don't mess up my thing

The hard times have been the longest battle for me
My freedom's inside, it's time to take what I need

More mess on my thing
More mess on my thing
More mess on my thing
More mess on my thing
More mess on my thing
More mess on my thing
More mess on my thing

I'm done with waiting, waiting, waiting, oh
I'm done with waiting, waiting, oh
I'm done with waiting, waiting, waiting, oh
I'm done with waiting, waiting, oh
I'm done with waiting, waiting, waiting, oh
I'm done with waiting, waiting, oh
I'm done with waiting, waiting, waiting, oh
I'm done with waiting, waiting, oh
