

Trust

Kungs

Show them all we won't be cornered
We will not be terrified
Show them all we don't take orders
We just want a good night

We'll come (at you)
What can we do
To win this (nothing yet)
We are against the lions

I don't wanna live in wonder
So we gotta send them under

Don't wanna wake up
In the same old bed again
Tried to escape them
They really make it hard
We need more trust

Show them all we won't be cornered
We will not be terrified
Show them all we don't take orders
We just want a good night

We came (at you)
What did we do
To win this? (everything)
We were against the lions

Now we're gonna live in splendour
Our elders will remember

Don't wanna wake up
In the same old bed again
Tried to escape them
They really make it hard
We need more trust

We need more trust

If you can hear me right now
Everybody take a bow
We just tore the roof down
Remind them this is our town
