Out there at night had to get out off bundle

Before I take this need food in my stomach
I'm feeling nice in the hills and it's sunny

Thinking that she had my back she was grimy
You wanna know where I'm at you can find me
Tryna get temple I'm out there with [?]
I got potential I gotta keep grinding
Switch up my rentals I gotta move silent
Yeah I had nickels you need me just dial me
Fans want a picture I'm out there it's crowded
Bitches they childish keep calling me [?]

Need to relieve all this stress cause it's bottle

People ask why you look stressed out
People ask why you ain't iced out
People ask why you so [?]
You got the bars but no lifestyle
Yeah you came far you the hype now
Smile a lil more with yo nice smile
Put something more to your nice style
We all know you overcame trials
You and these dudes ain't the same kind
Get in your group cause it's game time
Don't want you spittin the same lines
Why you keep saying you'll make time
Chill on the block and you waste time
We all know you hot but you playing round
The last shit you drop is my favorite now
The shit in the air gotta take it now
The shit you go through need to write it down
