

Come Overnight

Kur

Yeah
(Him)

I feel like my gut always right, I feel like one decision really could fuck up your life
Feel like my gut always right, these niggas ain't cut from my cloth, we nothin' alike
Niggas, they sayin' they want it, but don't even know all the problems that come with this life
They keep on askin' why I ain't get to the next level, but that shit don't come overnight
That shit don't come overnight
Blood, sweat, tears night after night
That shit don't come overnight
Blood, sweat, tears night after night
That shit don't come overnight
Blood, sweat, tears night after night
That shit don't come overnight
Blood, sweat, tears night after night

Night after night, I was rappin', I'm tryna make it happen, I need to go jump on a flight
Jump on a flight and I landed, Clearport landing, nothing in life, it was handed
None of this shit, I ain't takin' for granted, although it's so much to manage
Granny told me that it's God's plan, you just wastin' time tryna plan it
Woke up, gave my bitch five bands, she done gave me chance after chances
Turned nothin' into somethin', niggas showin' envy, I don't understand it
I just stayed calm, I ain't never panic
It threw me off when I started losin' my friends and losin' my family
It threw me off when she started talkin' like I wasn't up in her standard
It threw me off that I keep smokin' these 'Woods like they ain't cancer
Most of these bitches is nightlife creeps, bottle girls, yeah, they dancers
And just like a nighttime thief, I'm in and out of these mansions
Never put yourself in a situation where you at a disadvantage
I was hoppin' out the Culli', it was me and cuz duckin' from the cameras
Stayin' at The W, I'm fuckin' Philly bitches in Atlanta
I'ma do the Sprite, ginger ale night, I don't do the Fanta
I don't do pretendin', I ain't never watchin' what a nigga spendin'
Reason why we winnin', we be always workin', we ain't never chillin'

I feel like my gut always right, I feel like one decision really could fuck up your life
Feel like my gut always right, these niggas ain't cut from my cloth, we nothin' alike
Niggas, they sayin' they want it, but don't even know all the problems that come with this life
They keep on askin' why I ain't get to the next level, but that shit don't come overnight
That shit don't come overnight
Blood, sweat, tears night after night
That shit don't come overnight
Blood, sweat, tears night after night
That shit don't come overnight
Blood, sweat, tears night after night
That shit don't come overnight

Blood, sweat, tears night after night

Night after night, it was practice, ain't lookin' backwards, I gave my all t
o the mic
I went from carryin' ratchets, stuck in the madness, I could've fucked up my
life
I had a couple of nights, I struggled them nights, I felt like nothin' was r
ight
Already told you me and them ain't nothin' alike and I never been with the h
ype
I had to figure out life, I'm thuggin' it out, but deep down, I wasn't alrig
ht
Never compared my blessings, whenever I got it, I shared my blessings
People get weird and jealous, I feel like I don't wanna be near the desperat
e
The building was burning, I'm burning in flames 'cause I wasn't there to exi
t
Too much time invested, it's flyin', but it's goin' by the second
Sometimes the blessing in front of your face, you gotta open your eyes and c
atch it
It's always a lesson when you take a loss, as soon as you find it, correct i
t
I asked God for it and as soon as I got it, that's when my life got hectic
More to deal with, more bullshit, more real shit
More bills, more problems, more nut shit to deal with
Watchin' who I hang with, smoke with, chill with
To get it, it feel like forever, but you could just lose it real quick
I know it ain't what you know, it's about who you build with
I been heartbroke, I been let down, I don't feel shit
First I signed it, then I sealed it, then I sent it
Too many niggas I love just woke up like, "Fuck the friendship"
And I got some issues, I know, why I'm so quick to end shit
And I upped my weight, but I ain't talkin' gym shit, all of my pain was expe
nsive

I just had to wait, I just had to wait, I just had to, I just had to
I just had to wait, I just had to wait, I just had to, I just had to
I just had to wait, I just had to wait, I just had to, I just had to
I just had to wait, I just had to wait, I just had to, I just had to
I'm blowin' away, I'm blowin' away, I just had to, I just had to
I blow it away, I blow it away, I just had to, I just had to
I blow it away, I throw it away, I just had to, I just had to
I throw it away, I'm goin' away, I just had to
I had to wait it, I had to wait it out
I had to, I had to, I had to wait it out
I had to, I had to, I had to, I had to
I had to wait it out
