

Die Young

Kur

(Rest in peace my fucking soliders)

I been think bout my niggas in the past
I can't fuck wit niggas so I can't relax
Yea my homie died, I had to get him tat
Fucking up the summer, fucking up these racks

Fucking that bitch and I did, I had to give her the key
I got the sauce got the drip, niggas they mad as shit
In the trenches you know I'm the shit, I see niggas they sellin
g them bricks
No choice had to take that risk, I was down I was down on my di
ck (on my own)
Now they be hitting me up, ain't talking Giannis I got the ball
Keep my foot on they neck, now that shit got stuck
I know they hate me, I don't give a fuck
I ain't have money, I ain't have love
Now they be giving me hugs, [sips] that's that juice in the cup

Had to get up out the streets, so I won't die young
Get my youngins out the streets, so they won't die young
So we don't die young, so we don't die young, so we don't die y
oung
Get my youngins out the streets, so we won't die young
So we don't die young

Had to get up out the streets, so I won't die young
Get my youngins out the streets, so they won't die young
So we don't die young, so we don't die young, so we don't die y
oung
Get my youngins out the streets, so we won't die young
So we don't die young

Lost so many to the streets over dumb stuff, since I lost my be
st friend it been hard to love
Always on my own when my homie left me, he left me alone
I still got his last messages on my phone, when I see a picture
of him that shit home
Wanna take revenge then I put it in my song, get it from the to
ur then I spend it til it's gone, damn
Hopping on a flight five in the morning, LA flight, now I'm on
a mic with Fivio foreign
For the pain and the rain when it's pouring, to stay sane imma
buy me a foreign

Had to get up out the streets, so I won't die young
Get my youngins out the streets, so they won't die young
So we don't die young, so we don't die young, so we don't die y

oung

Get my youngins out the streets, so we won't die young

So we don't die young

So we won't die young, so we won't die young, so we won't die y
oung

So we won't die young...
