

# Got Thru It All

Kur

I done got through it all  
And I only say got because whatever  
Got through it all  
I done got through it all  
And I only say got because whatever coming I'll get through it too  
I done got through it all  
I done got through it all  
And I only say got because whatever coming I'll get through it too  
I done got through it all  
I done got through it all  
And I only say got because whatever coming I'll get through it too  
I done got through it all  
I done got through it all  
And I only say got because whatever coming I'll get through it too  
Get through it too  
Get through it too

A lot of shit in life be hard to say  
Love the hood dearly, it was hard to go  
Not hard to stay  
Had to part my ways  
Just for a little bit it was a awkward phase  
In a little bit, I'm bout to cop this Range  
My lil sis know that the bills get paid  
She don't have to worry, she don't have to slave  
I'mma be there for her, I'mma back her plays  
She ain't have no dad, ima pass this game  
I'ma pass her love, I just passed her beans  
I got back on drugs, try not to act so mean  
And I'm sorry that I use to always snap bout things  
I ain't talking to my uncle, feel like that's so strange  
Had to move my lil bundle in the sleet, snow, rain  
I was, going through it, they ain't hear my pain  
I was, in a Buick tryna get that Range  
I was, doing music but the street life came  
I was, so confused when my dog had changed  
I done, learned the rules when I played this game  
I done, had to chose if I want this lane  
I done, owned up, ain't nobody to blame  
I done, showed up, fly doing my thing

I done got through it all  
And I only say got because whatever coming I'll get through it too  
I done got through it all  
I done got through it all  
And I only say got because whatever coming I'll get through it too  
I done got through it all  
I done got through it all  
And I only say got because whatever coming I'll get through it too  
I done got through it all  
I done got through it all  
And I only say got because whatever coming I'll get through it too  
Get through it too  
Get through it
