

## Let's Talk

Kur

Let's talk about pipes and poles  
Let's talk about how they swipe and clone  
Let's talk about bricks and zones  
Let's talk about the sticks and stones  
Let's talk about drip and clothes  
Let's talk about hoes that chose  
Let's talk about bros and foes  
Let's get on the lows and highs

Let's get on the fact that I got out depression  
I feel like my soul alive  
I felt like my soul had died  
I feel like these niggas got something against me  
I'm treating they hoes like mine  
Britt had a Altima, I'm in the passenger  
Ask her if I had a 9  
This shit ain't nothing, I grew up with cons  
I put on the unions with palm

First day I met her, the bitch was too shy  
But she say she gon' do it this time  
Niggas be letting the pain hit 'em  
And they end up losing their mind  
Me 'n Coop taking these pain killers  
We just took two at a time  
Niggas they spraying the wheel  
They hitting whoever, if you in the ride  
Nigga, I did this for Al

Bitch must thought that I couldn't live without her  
But look at me living without  
Cut all my new bitches off, now they sour  
I feel like they all wanted clout  
She bringin' up different folks and doing the most  
Don't know what that's about

Tryna record and post  
Ain't feeling her ghost, I'm kicking her out

Wan was on the bus with me, ask him  
He still remember that route  
Twenty-five school buses in napkins  
That's how it first started out  
Don Lean told me keep on rappin'  
I can't wait till he get out

She telling me if it happens, it happens  
Girl, are we fucking or not?  
Doin' the dance, nigga, you duckin' or not?

Let's talk about pipes and poles  
Let's talk about life and goals  
Let's talk about heights and lows  
Let's talk about pints and O's  
Let's talk about Sheist and throwed  
Let's talk how they swipin' flows  
Let's go back to sticks and stones

Let's talk about whips and thrones  
Let's talk about

Let's talk about kicks that's on  
She wan talk about kids, that's drawin'  
Aye, let's handle our biz, we grown  
I ain't talking no biz on phones  
But this beat, it was made by Biz  
Let's talk 'bout the way we live  
Aye, let's talk about the things we did  
Aye, let's talk about
