

# No Trust

Kur

I surprised myself  
I'm still here  
Street nigga

I take your bitch on vacation  
Just the potential I'm cakin'  
Check my credentials, no statements  
Roll down the window and blaze 'em  
Way before I use the hashtag  
Stomach shot make him a patient  
Chip bag, that nigga wasted  
Smoke big bags, I look asian  
I don't understand that other shit  
I don't tell bitches my government  
I jump the fence from the government  
My cousin took cent from the government  
I don't really know you niggas  
We can never be on brother shit  
Devil tryna take me under  
I come from the gutter, fuck it though I love this shit  
I could never-ever love a bitch  
Lately niggas on some funny shit  
Yeezy's on, doin' the money dance  
Too much paper for a money clip  
We just fuckin', that's my honey dip  
.45 with the rubber grip  
Make a nigga do a summersault  
I don't trust not one of y'all  
In the trap, made 100 calls  
Now my section got 100 broads  
Since a youngin' I just want to ball  
Bags comin' and I want 'em all  
Bags comin' and I got to get 'em  
He with the plug, got a guala with 'em  
Remember he ain't had a dollar with 'em  
I don't think they want no problems with 'em

I just got some red [?]  
Bitches tryna kick it, think I shot a chicken  
Bought my momma house, white picket fences  
Show her somethin' different  
She knew I was different  
She knew I was gifted  
Think about it now I was out there trippin'  
I was on my grind  
I was takin' panties, take it how you get it  
I ain't frontin' for no motherfuckin' bitches  
I know [?] grantin' all my wishes  
Rent was doin' heavy [?] down to kick it  
[?] niggas pay attention  
Anything I rapped about I really lived it  
Takin' money, pull off  
I done did it  
Can't cross back  
You done burned your bridges  
I just hop out  
I was jumpin' fences

When I used to have the Camry it was simple  
Eatin' shrimp rolls, I was in the trenches  
Way before I had fame I had a pistol  
Tryna get her name, shawty gon' diss me  
Now she wanna text me, sayin' that she miss me  
Man that bitch is dizzy  
Throw that [?]  
Shit I never do and I fuckin' did it  
All this shit I gotta do  
All this shit I gotta do

I don't trust not one of y'all  
I don't trust not one of y'all  
I don't trust not one of y'all  
I don't trust not one of y'all  
Yeah, I don't trust not one of y'all
