Serve when the law even looking is the first
Yeah I got a plan if I ain't working it won't work
Break a 30 with my man watch his name got percs
Round my way in a van couple straps stay alert
P shifts from where I stand ain't about be ain't concerned
I just landed in LA waste no time hit up Thirst
Can't wander of straight waste no time gotta work
I was grinding all day walk the track feet hurt
Fake pills all around niggas having seizures
Watch my man bag a pound now I'm feeling eager
Should I go back to the street yeah the dirt
Should I go back selling weed on my turf
I just keep chasing my dream 'till it hurt
What if I'm chasing my dream and it 'ont work
And errbody asking you why you ain't make it
People stop rooting and them bitches stop waving
Looking like a loser to the people who had faith in me
Too be honest think I'm getting impatient
See it's about time when you dropping that flame shit
Kur why think errbody on anguish
Kur why you got all this built up anger
When you gon get tired of the block and the danger

Niggas call me Kur I'm from Sharpneck and temple
I go off got temper it was hard I'm just venting
And these broads ain't digg me
When I call they igged me
Same draws I was filthy these times they built me
Where I'm from it get tricky I'll show you if I'm iffy
And discouraged I get it I deserve what I'm getting
From my worst count it was different move work till you flip it
Drugs made it better take enough you won't feel it
It was rough on a nigga it was tough tryna get it
Life sucks no pity fucked up so gritty
On a bus saving for Will I just use my trizzy
In a rush I was in the field get it how you get it
Coulda got cuffed it was real
God he was with me and them shots hit to Will
And them guys coulda clipped me
And I had so much hope but my guy was found guilty
And I couldn't stay broke got the ounce got some empties
Coulda ran in the neighbor's crib, dog I was tempted
Got scars still healing, all fool feelings when your dog get a sentence
Think about him when I'm at my loft chilling
Make sure it's coming from the heart when I'm spittin
They gon talk shit do it all for attention
Yeah he was my man but he lost and he tripping
Yeah I got fans but it ain't happen instant
Bitch fucked my mans thought it get me in my feeling
But it didn't
Thought that doing that would make me feel it but it didn't
It was kinda cold early morning I was pitching
Mom getting twisted
Food stamps came with the murry buy fishsticks
Catching myself taking 30s everyday addicted
Round my way is vicious niggas look spicuous
Got better 'tention straight from the trenches
Live, believe it or not

Come to find out you not
But it ain't a big deal
