

# Remember Me

Kurt Nilsen

Remember me  
Remember all the good things about it  
Remember love  
And how it made you shine  
Remember us  
And how we made each other complete  
Can we get it like it once was before?

What will it take to give you up?  
What will it take to move on?  
I have been dreaming for the both of us  
We never really had a chance at all  
It was nobody's fault  
Oh, there's no one to blame  
But life has never treated me quite this way

Remember me  
Remember all the good things about it  
Remember love  
And how it made you shine  
Remember us  
And how we made each other complete  
Can we get it like it once was before?

I stand my ground after all this time  
I choose my own destiny  
It's kept me from livin' life  
I'm always chasing dreams  
I thought you needed a helpin' hand  
And I was your night in shining armour  
But somewhere down the line  
You didn't need me around

Remember me  
Remember all the good things about it  
Remember love  
And how it made you shine  
Remember us  
And how we made each other complete  
Can we get it like it once was before?

Some might say we never try  
But that is easier to say goodbye  
And the life was build upon trust  
Oh, it takes a lot to sacrifice that much  
Some people are not meant to be  
Some hearts beat differently  
I can't help it, I didn't know  
I won't forget it and I wish it wasn't so

Remember me  
Remember all the good things about it  
Remember love  
And how it made you shine  
Remember us  
And how we made each other complete  
Can we get it like it once was before?

Can we get it like it once was before?

Remember me

You won't forget about me

Remember me

You never forget about me
