

The Creature

Kurt Vile

She said I'm a creature of habits
Oh, she's so cute with her claims
Ain't got time for asking questions
So I just nod and move on
And that's all right for me
So far, So good for me

They call me the creature of habits
But I'm a man, just the same
Ain't got time for overthinking
So I just rely on ... intuition
And that's alright for me
So far, So good for me

They call me a dirty creature
Oh, what you know? ...
Always something
that I don't care about
And that's all right for you
So far, So good for you

She said I'm a creature of habits
Oh, she's so cute with her claims
Ain't got time for asking questions
So I just nod and move on
And that's all right for me
So far, So Great for me
