

## Carry On

Kutless

There is strength in my weakness  
That only comes from You  
There is power in meekness  
That I have found in You  
Where else can I go

You know I'm weak  
I know You're strong  
You say when I'm broken  
And can't carry on

Carry on  
When all my strength is gone  
You're still holding on

There is love for the lonely  
That only comes from You  
There is peace and forgiveness  
That I have found in You

Where else can I go

You are the Way  
You are the light  
You are the voice calling me through the night

(You are Holy and just  
Full of mercy and love  
You are patient and kind  
Your grace has opened my eyes)
