

High Enough

Kutless

What would I say
If it's the last time
'Cause in your face
I see my whole life
Could I find the words
Too many memories
Pulled me from the dirt
And brought me to my knees

I never thought
I could be changed
You give me strength
You make me brave
Gave me more than all I need
I take on the world
'Cause you're the biggest part of me

See the light on the horizon
In the air we keep on rising up
We'll never be high enough
Your love, it keeps me flying
Elevating, nobody's stopping us
We'll never be high enough

What came before
Is in my rear view
Had to let it go
I only need you
Was in the dark
Without a flashlight
You lit up my heart
And showed me a new life

I never thought
I could be changed
You give me strength
You make me brave
Gave me more than all I need
I take on the world
'Cause you're the biggest part of me

See the light on the horizon
In the air we keep on rising up
We'll never be high enough
Your love, it keeps me flying
Elevating, nobody's stopping us
We'll never be high enough

High enough, high enough
High enough, high enough

See the light on the horizon
In the air we keep on rising up
We'll never be high enough
Your love, it keeps me flying
Elevating, nobody's stopping us
We'll never be high enough

High enough, high enough
High enough, high enough
