## Tonight

I hear the voice Of thousands All gathered here Are they just a noise Soon lost in air Or is there more Is there more

You lift your hands up high Reaching to the sky Is there a reason Can, can you tell me why Or is there more Is there more

So let me ask you Can't you feel the music All around you Flashing lights But love can fill your mind Can't you feel the sounds Of love flow through you We're praising Him tonight

Can't you feel the music All around you Flashing lights But love can fill your mind Can't you feel the sounds Of love flow through you We're praising Him tonight

Some say that It's, it's not right For us to praise On, on this type of night Tonight there's more There's more

Time tonight Just more than empty words The songs of love Sent to our God above Life is more There's more

So let me ask you Can't you feel the music All around you Flashing lights But love can fill your mind Can't you feel the sounds Of love flow through you We're praising Him tonight

Can't you feel the music All around you **Kutless** 

Flashing lights But love can fill your mind Can't you feel the sounds Of love flow through you We're praising Him tonight
