

## Father Figure

Kwabs

Give me love that's unconditional  
And I'll cherish your name  
Give me all that you could bear to part with  
And I'll give you the same

I've been running in the darkness so long  
Tryna rewind the past  
Who'd have known it was so hard to move on?  
From a love that I never had?

I just need your tender, tender grace  
Be my father figure  
Help me to remember your face  
Be my father figure  
My father figure

Give me shelter and release my pain  
I've been hurting too long  
Teach me how I'm meant to love again  
Show me how to be strong

I've been running in the darkness so long  
Tryna rewind the past  
Who'd have known it was so hard to move on?  
From a love that I never had?

I just need your tender, tender grace  
Be my father figure  
Help me to remember your face  
Be my father figure  
My father figure

I just need your tender, tender grace  
Be my father figure  
Help me to remember your face  
Be my father figure  
My father figure

Give me love, give me love  
Give me love, give me love  
Give me love, give me love  
Give me love, give me love
