We all be adults so why are you kidding  
I go admit if I be wrong  
Everybody get opinion but who go live with the decision  
Redemption valley where we're living  
Still get the hunger but we chop saaaa  
Can't chase lies sake of blind loyalty  
Can't change the past so just let it die  
This world be yawa can't even trust my blood  
When I dey around she no dey fuck the other guy  
True say morrow no be promised

One time for my people
