

Pain Interlude

Kwesi Arthur

Make I talk about the steps
On thema necks
Make I talk about the vex me I no be pressed
If I talk about the stress e no go make it less
My big homies turned to bitch homies what be next
I no fit dwell on regrets, fuck a rewind
Lately I no fit dey sleep been trapping all the time
Toss and turn, toss and turn like all the time
I dey strike them dey feel say I be number 9

Make I talk about the pain
No pain, no gain
We go never be the same

Make I talk about the pen, I pick it up
Feet don't fail me through the fire
I've been heating up
If I gyemi right now, is it all enough?
Officer e just be locks I no be criminal
E be scars on my body no be tattoo
Them dey watch me like a monkey them be baboons
Be like all be lie Junior
Class clown get the last laugh
E dey pain them I do what them say I can't do
Wo ti p3n ne hwana? Na m) gas you?
Pain's when number 2 dey come someone dey the bathroom
I dey play with fire wey I get burned
Sadly it's the only way I fit learn
Still money man a fit earn
And when we earn some money man a fit burn

Friends turn to foes
Friends turn to foes
I remember times we no get no clothes
So so la borrow just to get to shows
How we get to show them no make we show?
Look out for your brother I figa that be code
How you break the code?
How you break the code?
I should have seen through you
I dey wonder why the hearts of men be full of evil
I dey wonder how will life be if we never rhymed
You win some and lose some in this game of life
I dey move like water, I dey flow through time
)p3 stand up nigga cos she's so sick of lies

Now make I talk about the pain
No pain, no gain
We go never be the same

Make I talk about the pain
No pain, no gain
We go never be the same

No pain, no gain
We go never be the same
