Summer, please help me, oh my  
(Help me)

Just take my hand  
And I'll take you there in the sun  
I'll be sailing away  
I'll be flying away with you

Summer, please help me  
Make my love come true  
Let me forget the tough times  
And leave my past behind  
On this beach where I found you  
Love at first sight changed my life  
In the summer sunset

City streets glowing in the sunset  
(Let me kiss you one more time)  
Tanned by the blazing sun  
I want to be with you

I love your dazzling long hair  
Don't you want to know about me?  
If I could have you  
I'd go anywhere, woah, baby  
The stars twinkling over the night sea  
The song of the waves  
I want to feel you  
Oh, beautiful baby

Just wait a little longer  
Don't leave me now  
We can't part before love begins  
Where do you live?  
What do you think of me?  
I want to touch your face  
When you look at me

Just us two sitting on the white sand  
(Your lips, your eyes I love so much)  
Looking into your clear eyes  
Resting my head on your lap

The waves of love in the sparkling sea  
The summer vacation I've waited for  
I can't give up now  
Don't leave me, woah, baby

Summer beach paradise  
Your name written in the sand  
When we meet again this weekend  
Stay with me

I love your dazzling long hair  
Don't you want to know about me?  
If I could have you  
I'd go anywhere, woah, baby  
The stars twinkling over the night sea  
The song of the waves  
I want to feel you  
Oh, beautiful baby

Just take my hand  
And I'll take you there in the sun  
I'll be sailing away  
I'll be flying away with you
