

## BETTER OFF

KxllSwxtch

Don't go chasing stars  
I know you're boutta trip  
Don't go wasting all your tears  
Your eyes can dry again  
Maybe it's all in your head this time  
Maybe it's all in your head  
Maybe it's all in your head this time (Maybe it's all in your head this time)  
Maybe it's all in your head (Maybe it's all in your head)

You don't ever seem to get far without you  
Better off without you (you)  
Better off without you

What goes comes around comes back around  
Did you think I would just let you sin?  
Girl, we had our heads in the clouds  
Thinking we could never fall from this  
Well, where did we go wrong?  
With our love, it's gone with the wind  
Why, why can't we move on and let it go with our damages?

You don't ever seem to get far without you  
Better off without you (you)  
Better off without you (you)  
Better off without you (you)  
Better off without
