

# BREAK

KxllSwxtrh

I'm about to break  
So close to caving in  
Fuck it, I'll be fine, or at least I can play pretend  
I'm about to break  
I'm about to-  
I'm about to break  
Think God's abandoned ship  
Why does everything I touch in time go down to shit

I'm about to break  
I'm about to break  
I'm about to break  
I'm about to-  
I'm about to break  
I'm about to break  
I'm about to break  
I'm about to-  
I'm about to-

Bite down on my teeth  
Every night I dream  
No one notices the sound of bullets ripping through my brain  
Took the good from me  
Now just let me be  
Don't know how much I got left inside of me; my will is weak  
Doomed to wake up  
With no salvation  
Why can't I face what  
I can't escape from

I'm about to break  
So close to caving in  
Fuck it, I'll be fine or at least I can play pretend  
I'm about to break  
I'm about to-  
I'm about to break  
Think God's abandoned ship  
Why does everything I touch in time go down to shit

I'm about to break  
I'm about to break  
I'm about to break  
I'm about to-  
I'm about to break  
I'm about to break  
I'm about to break  
I'm about to-
