

## Cigarette Ashes

KxllSwxtch

Stomach turnin', girl, you make me nervous  
Got me goin' crazy like my mind a circus  
So divine, tell me, what's your purpose?  
One in a million, girl, far from worthless  
Mesmerized by your body's complexion  
Hypnotized the way you walk in my direction  
Lost for words, girl, you leave me breathless  
Tell me, do you fall in love with your own reflection?

Selfless kissing on a cigarette  
Contemplation 'bout the dudes you met  
I can't lie, baby, I've been stressed  
Like, do you think about me every now and then?  
Know it hurts me when I recollect  
At my fall but I'll resurrect  
Overwhelmin' and it's evident  
But I love you still with or without repent

Girl, your love made me intoxicated  
Something about you got me feeling sedated  
Complicated, you would neck a stranger  
Like, what's the issue? You've been distant lately  
Said, girl, your love made me intoxicated  
Something about you got me feeling sedated  
Complicated, you would neck a stranger  
Like, what's the issue? You've been distant lately  
Tainted feelings, do you love or hate me?

Stomach turnin', girl, you make me nervous  
Got me goin' crazy like my mind a circus  
So divine, tell me, what's your purpose?  
One in a million, girl, far from worthless  
Mesmerized by your body's complexion  
Hypnotized the way you walk in my direction  
Lost for words, girl, you leave me breathless  
Tell me, do you fall in love with your own reflection?

Own reflection, own reflection  
Own reflection, own reflection  
Own reflection, own reflection  
Own reflection, own reflection  
Own reflection, own reflection  
Own reflection, own reflection
