

DISASTER

KxllSwxtch

Oh, yeah-yeah, yeah
Yeah-yeah, yeah-yeah-yeah
Oh, yeah-yeah, yeah, yeah
Am I, I, yeah-yeah, yeah
She's a heartbreaker

She's a heartbreaker disguised as a pretty little face, yeah
She makes my heart ache when she lies and says she loves me any
way, yeah
When you're not around I can't keep cool, so won't you stay now
?
It's safe and sound when I'm with you, don't run away now

'Cause baby, you and me, why do we equal disaster?
You're like my kryptonite and I'm your cancer
Every touch slowly kills a little faster
That's alright, we can dance with death together
You and me, why do we equal disaster?
You're like my kryptonite and I'm your cancer
Every touch slowly kills a little faster
That's alright, we can dance with death together

Ooh (Yeah, yeah)
Ooh (Yeah, yeah)
Ooh (Yeah, yeah, uh)
Ooh (Yeah, yeah)

So won't you take my hand and watch as the rain falls?
Down your skin lathered with your makeup
Dark hair, two-faced girl of my dreams
Stuck in my nightmare, can't seem to wake up

You and me, why do we equal disaster?
You're like my kryptonite and I'm your cancer
Every touch slowly kills a little faster
That's alright, we can dance with death together
You and me, why do we equal disaster?
You're like my kryptonite and I'm your cancer
Every touch slowly kills a little faster
That's alright, we can dance with death together
