

# FALLING DOWN

KxllSwxtch

And baby, who are you to say  
That love never makes mistakes  
'Cause lately I just can't catch a break  
It just all keeps falling down

Ohhh  
Let me be, just let me be  
Ohhh  
Don't cage what you want free

Can't you see you're  
Bad for me girl  
Baby, you're my sweet disease  
Fanstasies of  
What could be but  
You had to sow what you can't reap

And maybe you ain't know much better  
But you said we'd last forever  
Guess forever's not as long as it seems  
And maybe I don't know much better  
Hope the thought of us together  
Breaks you down and eats you up in your dreams

And baby, who are you to say  
That love never makes mistakes  
'Cause lately I just can't catch a break  
It just all keeps falling down

And it all keeps falling down  
And it all keeps falling down  
And it all keeps falling down  
And it all keeps falling down

Girl, you're the worst  
Swear your love is poison  
Running course right through my veins  
Just wanna forfeit  
Its back and forth  
It's fucking driving me insane

And who am I  
To let it all burn down to ash  
You and I  
Are somewhere picture perfect stuck in the past

And baby, who are you to say  
That love never makes mistakes  
'Cause lately I just can't catch a break  
It just all keeps falling down

And it all keeps falling down  
And it all keeps falling down  
And it all keeps falling down  
And it all keeps falling down
