KxllSwxtch

.38 tucked feeling like Megaman  
Dual wield this heat blasting outta both hands  
Ricks on feet, ksubi denim my jeans  
Think he mad that his bitch wanna fuck 'cause my bands  
TMNT Donatello way I pulled up, one deep with a stick on the hip no staff  
Death to ya buddy, send shots to your tummy  
Get burnt, getting under my skin, no rash

Run little  
Punk, you fucked up  
Load up on guns  
Hope your kicks is pumped up  
He wanna rush Donald  
Make ya duck, duck  
Like Kriss Kross  
Chopper make you jump, jump

Okay  
Like a mugshot, shorty come face some dick  
Bet this blade leave ya body parts adjacent  
I sling dick till her pussy need maintenance  
Got blood stains on me still, don't wanna change the fit  
She got a big butt, Malcom put my dick in the middle  
Bitch I got big bucks sticking to the green like the Riddler  
Wanna act up, pussy, put the steel to your dental  
Say he want action, pull up with the static like killua

Get your head whipped back like Willow Smith  
My new toy cock back then spill your shit  
Like, lay flat like silhouettes  
Am I psycho? Just a little bit  
You better stay inside, I won't leave no witness  
Aim one eye closed, bitch, I feel like slick Rick  
Don't get too close, you pay God a visit  
Point blank headshot, think he need assistance

Like Simon do what I say to  
She fuck on me then my kin  
You so fake when you wake up  
Put makeup on, Harley Quinn  
Something wrong with my mental  
Cant help but laugh when I sin  
Ryokan ain't no peace y'all  
Persist to fuck with my zen
