

## SOMEBODY ELSE

KxllSwxtch

Chasin' these highs again  
Can't count the lows I feel with you  
Wearin' my heart out thin  
But it's said and done, I'm through with you

Someone come save me from you, it's breakin' me in two  
It's hard to keep carrying on without somebody out there

I'm tired of wastin' time and holdin' my breath  
Don't make you right just 'cause you left  
Gonna take some time to sew this thread  
With the way you taint your love so dangerous  
Don't really wanna love somebody else  
But, girl, you make your love so hard to feel  
Don't really wanna love somebody else  
Don't really wanna, don't really wanna love somebody else

Blind to the truth, how could I stay with you?  
I tried one too many times to be your muse  
Why's it always a game to you?  
Why am I always afraid to lose?

Someone come save me from you, it's breakin' me in two  
It's hard to keep carrying on without somebody out there

I'm tired of wastin' time and holdin' my breath  
It don't make you right just 'cause you left  
Gonna take some time to sew this thread  
With the way you taint your love so dangerous  
Don't really wanna love somebody else  
But, girl, you make your love so hard to feel  
Don't really wanna love somebody else  
Don't really wanna, don't really wanna love somebody else

Don't really wanna love somebody else  
Don't really wanna love somebody else
