

STRAY

KxllSwxtch

Losing myself through the walls
Nothing compares to these scars
Wander your eyes, night and day
Searching to find an escape
Led by your lies, I'm astray
Take my hand and lead me to my grave

Nothing cures the pain inside
The sight of you helps remind
How could I forget?
Nothing cures the pain inside
The sight of you helps remind
How could I fucking forget?

How could I fucking forget?
How could I fucking forget?
