

# THE END

KxllSwxtch

Ooh, ooh

Hi, I think I've might have suffered enough  
'Cause you, enough for two  
Show me a sign  
'Cause lately it's just not had enough with you  
Girl, what's up with you?

So what have you even gained?  
It's not like you to be phased  
It's me and you to the end of times  
It's all I thought that you would leave

Cursing my insanity  
Waiting for the end  
Let's please your twisted fantasy  
To push me off the edge

If we can make it through the night (If we can make it through the night)  
I hope we make it out alive (I hope we make it out alive, if we can make it  
to the end)  
Cursing my insanity  
Waiting for, waiting for the end

For right or wrong  
Doesn't matter, I'll be coming back to you (you, you, you)  
For right or wrong  
Doesn't matter, 'cause it's all the same with you

So what have you even gained?  
It's not like you to be phased  
It's me and you to the end of times  
It's all I thought that you would leave

Cursing my insanity  
Waiting for the end  
Let's please your twisted fantasy  
To push me off the edge

If we can make it through the night (If we can make it through the night)  
I hope we make it out alive (I hope we make it out alive, if we can make it  
to the end)  
Cursing my insanity  
Waiting for, waiting for the end

Cursing my insanity  
Waiting for the end  
Let's please your twisted fantasy  
To push me off the edge

If we can make it through the night (If we can make it through the night)  
I hope we make it out alive (I hope we make it out alive, if we can make it  
to the end)  
Cursing my insanity  
Waiting for, waiting for the end

Waiting for, waiting for the end

Waiting for, waiting for the end
