

# WORDS KILL

KxllSwxtch

Woah...

Tell me what you're waiting for  
Say the word and I'll be gone  
Or never mind it all  
Oh oh 'cause  
Your words kill and cut through bones  
But your silence speaks enough  
For me girl so say no more  
Oh oh

Woah...

Sometimes I feel like I'm upside down  
Feet towards the clouds, my head to the ground  
I guess I wear my heart inside out  
I just can't bite my tongue when you're around

Maybe we can work it all out  
When the sky turns blue and the sun comes up  
Maybe it was just the wrong place  
Wrong time meeting you, maybe I'm just dumb  
Smoke from your gun, my heart's been hit  
Sometimes I feel I feel like shit

Woah...
