Tuck your tail, when you soft like Sway, I can tell it by the look on your face, ayy  
Head shave, disobey like drugs on bargain disarrange  
Shell-shock, make your brain shake, Glock dislocate your vertebrae  
Lockjaw, bitch fornicate, your bitch stay strong like Hercules  
Hands on, they know one safe, he flatline, no resuscitate

Y'all insects that get spread like pesticide  
Take your bitch, I bet she don't mind if I  
Insert dick when my shit on petrify  
Keep two sticks on me, just like savior I  
Keep chains on my body like my name Kobe

Got your deathwish better hid it under the seat

ACOG sight, it enhance my glimpse  
Bullets kissing on the flesh of your skin  
Money stretching, watch you moan in Nether  
Finna like light this bitch, when I pull out my hands  
Go invest into bulletproof vest, we shooting at your chest until this  
AR jam
