

Fancy Things

Ky-Mani Marley

She nuh waan nuh big Benz
No, no fancy car
She nuh waan nuh big house
Don't impress her at all
Say she need a man
Who aguh give it to her hard
She say she want it long
To feel it through the night

And then she said baby please
You can keep all your fancy things
All I want honestly
Is for you to make love to me
Once again
So baby please
You can keep all your fancy things
All I want honestly
Is for you to make love to me

Making love, making love
Every time I'm with you all I want to do is lay and make love
Once again, once again
[x2]

She don't need no diamonds
No gold, no silver, nor pearls
Just some love in the night and
Meck har feel like your only girl
Say she need a man
Who aguh give it to her hard
She say she want it long
To feel it through the night

And then she said baby please
You can keep all your fancy things
All I want honestly
Is for you to make love to me
Once again
So baby please
You can keep all your fancy things
All I want honestly
Is for you to make love to me

Making love, making love
Every time I'm with you all I want to do is lay and make love
Once again, once again
[x2]

It ain't much I'm asking for
All I need is a little bit more
Make sweet love to me
Once again, once again
It ain't much I'm asking for
All I need is a little bit more
Make sweet love to me
Making sweet love to me yeah
Once again

Making sweet love to me yeah
Once again
Making sweet love to me yeah

And then she said baby please
You can keep all your fancy things
All I want honestly
Is for you to make love to me
Once again
So baby please
You can keep all your fancy things
All I want honestly
Is for you to make love to me

Making love, making love
Every time I'm with you all I want to do is lay and make love
Once again, once again
