

## Fade Away

Kygo

I know it's getting close to summer, but the nights feeling longer  
Should have been careful, now I'm standing here in the rain  
Was in the shallow and your love was pulling me under  
'Cause you didn't feel the same

My father told me you learn it as you get older  
And one day you'll see it was meant to be  
'Cause true love don't fade away (Ooh)  
True love don't fade away  
True love don't fade away  
True love don't fade away (Ooh)  
True love don't fade away

I wish the demons in my head would let me handle the talkin'  
And I'm hoping that someday you'll set me free  
My friends, they tell me that I'm looking like a dead man walkin'  
Yeah, hope one day you'll see what you done to me

My father told me you learn it as you get older  
And one day you'll see it was meant to be  
'Cause true love don't fade away (Ooh)  
True love don't fade away  
True love don't fade away  
True love don't fade away (Ooh)  
True love don't fade away
