

Fever

Kygo

Wide awake until the sunlight (mhm)
Round the table with the cards right (mhm)
I try to love and tear it up and then it's gone
I always stay for way too long

I got tickets for a night flight (mhm)
Always pushing for a good time (mhm)
The way I roll when we go up we don't come down
Until our bodies hit the ground

I got the fever, I got the fever running through my soul
I got the fever in the night, if it ain't wrong then it ain't right
Fever with the lights down low
I got the fever

I got the fever
I got the fever

Give me water I need cleansing (mhm)
Cause' this dark feelings never ending (mhm)
Too tired to talk, too tired to walk but here I go (mhm)
Down another lonely road

You can't keep me on the sidewalk (mhm)
Cause' I got cigarettes and sweet talk (mhm) oh
Who needs bodies, we got money, we got time
Riding shotgun through the night

I got the fever, I got the fever running through my soul
I got the fever in the night, if it ain't wrong then it ain't right
Fever with the lights down low
I got the fever

I got the fever
I got the fever

I got the fever, I got the fever running through my soul
I got the fever in the night, if it ain't wrong then it ain't right
Fever with the lights down low
I got the fever
