

## Hold On Me

Kygo

I see the hurting deep within your eyes  
I just wanna keep you close  
And all the memories they come alive  
They're tearing up in your soul

The days you don't, don't believe  
When you're lost and afraid to dream  
When your heart hurts too deep  
Put your trust in me before you leave

Oh oh oh, just hold on me  
Cuz love is all we need, darling  
Oh oh oh, just hold on me  
Cuz love is all we need, darling

Just hold on me  
Cuz love is all we need, darling

Cuz love is all we need, darling

Maybe somewhere in a different time  
We could make things good  
Cuz maybe one day we will be alright  
Like we always said we could

The days you don't, don't believe  
When you're lost and afraid to dream  
When your heart hurts too deep  
Put your trust in me before you leave

Oh oh oh, just hold on me  
Cuz love is all we need, darling  
Oh oh oh, just hold on me  
Cuz love is all we need, darling

Just hold on me  
Cuz love is all we need, darling

Just hold on me  
Cuz love is all we need, darling

Oh oh oh, just hold on me  
Cuz love is all we need, darling
