

Lighthouse

Kygo

I'm in too deep
The darkest blue is all I see
Is no one gonna rescue me?

I don't know
I'm in the storm
And I can feel it raging on
There's one thing that I'm wishing for

Oh, could you be my lighthouse?
Be the one to guide me home

Be the one to guide me home
Be the one to guide me home
Be the one to guide me home

I'm lost in the waves
Shadows holding me in a place
I need your light to lead the way

Oh, could you be my lighthouse?
Be the one to guide me home
Ooh, yeah

Be the one to guide me home
Be the one to guide me home
Be the one to guide me home

Be the one to guide me home
