

# Whatever

Kygo

There's a space in my heart  
When it all comes crashing down  
Anytime I hear your name out in public  
There's a place that I go  
Every time that you're in town  
It's just me and the knots in my stomach

And it's true  
It wasn't easy  
Getting over you  
But that's just what I had to do

Whatever, whatever  
We were never good together  
I'll be here and you stay there  
Truth is I never cared  
Whatever, whatever  
Two years, that ain't forever  
I'll be here and you stay there  
Won't see me cry no tears

Whatever, whatever  
Won't see me cry no tears  
Whatever, whatever  
Won't see me cry no tears  
Whatever, whatever  
Won't see me cry no tears  
Whatever, whatever  
Won't see me cry no tears

Never mind, never mind  
Feels like you were never mine  
Go lose myself  
In the arms of a stranger  
And yeah, it sucks  
Sometimes in love  
You try your best but it doesn't work out  
And it don't matter either way, oh yeah

Whatever, whatever  
We were never good together  
I'll be here and you stay there  
Truth is I never cared  
Whatever, whatever  
Two years, that ain't forever  
I'll be here and you stay there  
Won't see me cry no tears

Won't see me cry no tears  
Whatever, whatever  
Won't see me cry no tears  
Whatever, whatever  
Won't see me cry no tears  
Whatever, whatever  
Won't see me cry no tears

Whatever, whatever

We were never good together  
I'll be here and you stay there  
Truth is I never cared  
Whatever, whatever  
Two years, that ain't forever  
I'll be here and you stay there  
Won't see me cry no tears
