

# Don't Tie Me Down

Kyla

Here's the situation  
Sometimes I feel like I don't have control  
About the things in my life and my decisions  
I just wanna try to do things on my own  
I'm not trying to disrespect  
But I gotta live my life  
I wanna see the world and do it right  
Although sometimes it's rough  
I still find time to shine  
Hey

Baby, let me spread my wings  
Don't tie me down to the floor, floor, floor  
Don't wanna be held back  
I know I can do so much more, more, more  
Tonight it's going down, down, down, down, down  
Tonight, I'm gonna do it  
Yeah, I'm gonna do it  
It's going down, down, down, down, down  
Tonight, I'm gonna do it  
Yeah, I'm gonna do it

I keep it real  
I make sure I'm always speaking from my heart  
You always said that it would be such a privilege  
To get a chance to wish on three stars, yeah  
Now I'm here but what I want is just to live my life  
I wanna see the world and do it right  
Although sometimes it's rough  
I still find time to shine  
Hey

Baby, let me spread my wings  
Don't tie me down to the floor, floor, floor  
Don't wanna be held back  
I know I can do so much more, more, more  
Tonight it's going down, down, down, down, down  
Tonight, I'm gonna do it  
Yeah, I'm gonna do it  
Tonight it's going down, down, down, down, down  
Tonight, I'm gonna' do it  
Yeah, I'm gonna do it

Sometimes I feel as if I'm always the one that's wrong  
But I know this time I just gotta be strong  
Just the way that you love me  
It's driving me crazy, baby  
Sometimes I feel I gotta let you go  
Why can't you just understand me  
And just let it go  
Cause I'll go fly high  
You've been ever flown  
Just watch me  
You better watch me

Baby, let me spread my wings  
Don't tie me down to the floor, floor, floor

Don't wanna be held back  
I know I can do so much more, more, more  
Tonight it's going down, down, down, down, down  
Tonight, I'm gonna do it  
Yeah, I'm gonna do it  
It's going down, down, down, down, down  
Tonight, I'm gonna do it  
Yeah, I'm gonna do it
