

# Fix You & Me

Kyla

Babe here we are  
We could've gone far  
Five years of us tending scars  
We're hurting, fighting aimlessly

Blindly believed it's gonna be worth it  
My love's never gone  
Stood by my promise to you  
But much pain inside has broken me

And if I didn't love you  
I'd just leave and let you go  
But you know it ain't easy  
And if I never cared I swear  
I'd ran somewhere goddamn scared  
Can't we try  
Even in the midst of uncertainty  
Let's fix you and me  
Fix you and me

Where do we go?  
Tired of the show  
Acting, pretending we're fine  
Love is fading, are we wasting time?

I still believe it's gonna be worth it  
My love's never gone  
I'm keeping my promise to you  
Cause our bow can't be broken

And if I didn't love you  
I'd just leave and let you go  
But you know it ain't easy  
And if I never cared I swear  
I'd ran somewhere goddamn scared  
Can't we try  
Even in the midst of uncertainty  
Let's fix you and me

And if I didn't love you  
I'd just leave and let you go  
But you know it ain't easy  
And if I never cared I swear  
I'd ran somewhere goddamn scared  
Can't we try  
Even in the midst of uncertainty  
Let's fix you and me

Even in the midst of uncertainty  
Fix you and me
