

I was flexing, anticipating
I was wondering what I could say
I was driving around, around in circles
It's a miracle I stayed away, oh babe

All I want to do is hold you tight
Would you object if I called you mine?
Did you hear me right? I'll do you no wrong
And, baby, no fretting, I just suggest we get it on

I was flexing, anticipating
I was wondering what I could say
I was driving around, around in circles
It's a miracle I stayed away

It's summer time
You're so fly
You and me
It could be

I was flexing, chilling on my own
But now I'm all geared up and ready to play
She was walking around, around in circles
It's a miracle I stayed away

All I want to do is hold you tight
Would you object if I called you mine?
Did you hear me right? I'll do you no wrong
And, baby, no fretting, I just suggest we get it on

I was flexing, anticipating
I was wondering what I could say
I was driving around, around in circles
It's a miracle I stayed away

It's summer time
You're so fly
You and me
It could be

It's summer time
You're so fly
You and me
It could be
Yeah

I was flexing, anticipating
I was wondering what I could say
I was driving around, around in circles
It's a miracle I stayed away

It's summer time
You're so fly
You and me
It could be
