

# I Wish You Love

Kyla

So here goes  
You're leavin'  
You'll be workin' far from home  
And I'll be left here on my own

We both know you have to go  
But I wish there was a way  
You could feel my love each day

(But/cause though)  
I've nothing else to give you  
To remember me by  
Just a song I made in my heart  
So you'll know though we're apart

I wish you love  
la la la n-ya n-ya  
I wish you love  
la la la n-ya n-ya

You hold my heart with this song  
So when you miss me  
Just sing along

I'll yearn for you always  
Though I know it won't be long  
And you'll be back where you belong  
Until that day if you should miss me  
Play this song and hear me sing  
My love is never far away

(But/cause though)  
I've nothing else to give you  
To remember me by  
Just a song I made in my heart  
So you'll know though we're apart

I wish you love  
la la la n-ya n-ya  
I wish you love  
la la la n-ya n-ya

I wish you love  
la la la n-ya n-ya  
I wish you love  
la la la n-ya n-ya  
I wish you love

I wish you love...
