

## Next Episode

Kyla

I'm gonna miss my family here  
I'm gonna miss my friends but I know  
I crave a new understanding of the world  
I want to explore  
It's something that I've always longed to do  
I want to explore  
On to the next episode

I gotta tell you, boy  
You know it's not the moving that makes me sad  
It's the people I love  
I'm leaving behind that I absolutely love  
The ones I care about  
And all the things I've known my whole life  
That I absolutely love  
On to the next episode

Looking back on the ride that has been so overflowing with blessings  
And there were those days  
I find myself over-thinking and stressing  
But all I gotta do is take the leap, enjoy the thrill of the next episode of our life

As the days come closer  
Change is upcoming and sooner  
Stressing over whether or not the days are over  
Am I doing the right thing?  
But over and over I'd say "yes" to this  
I'm ready for it

Looking back on the ride that has been so overflowing with blessings  
And there were those days  
I find myself over-thinking and stressing  
But all I gotta do is take the leap, enjoy the thrill of the next episode of our life
