

Only Gonna Love You

Kyla

Only gonna love you
Only gonna love you
Only gonna love you
Gonna love you
Only gonna love you

I have never felt so grand
Even I, I cannot understand
Not a lie, I found a love
That could withstand anything, everything that I want and more

Glad you came into my life
There's really very few of your type
Won't deny, I thought that true love is all hype
You disapprove that
That it's just a make believe

And I'm only gonna love you and nobody else
I will never ever find somebody else like you ooh ooh ooh
Patiently I will keep this love until the day we meet again
Love will never end
I will never love this way if it isn't you you you ooh

I have never felt so secured
For long I've been so immature
When I've finally found the one
It's been so calm, calm deep inside, so assured of your love and more

Glad you came into my life
There's really very few of your type
Won't deny, 'cause the truth, I thought that true love is all hype
Now I'm relieved
That it's not just make believe

And I'm only gonna love you and nobody else
I will never ever find somebody else like you ooh ooh ooh
Patiently I will keep this love until the day we meet again
Love will never end
I will never love this way if it isn't you you you ooh

Way beyond a dream or a fantasy
Lookin' like a queen even when you dressed casually
Got a boyish charm but you always see the man in me
Safety in my arms even on the days you're mad at me
Mood swings are seasonal, love remains evergreen
I'm the type of guy that they'll never be it's meant to be
I like what you're telling me, our life they can never see
Been thinking on what settles me and Kyla you the recipe

Only gonna love
Yeah I hope you mean that
You have a vision for me and I'll do my best to be that
Only gonna love you and nobody else
'Cause nobody else can come close nah

Oh it's not just make believe

And I'm only gonna love you and nobody else
I will never ever find somebody else like you ooh ooh ooh
Patiently I will keep this love until the day we meet again
Love will never end
I will never love this way if it isn't you you you ooh

Only gonna love you
Only gonna love you and nobody else
Only gonna love you
Only gonna love you and nobody else
Only gonna love you
Only gonna love you and nobody else
Only gonna love you
Only gonna love you and nobody else
Only gonna love you
I will never ever find somebody else like you ooh ooh ooh
