

## Talk About Us

Kyla

It's been a while since I've spoken to you  
Mmh, my baby, my mind just keeps on drifting back to you it's true  
'Cause by your side is where I just wanna be  
Mmh, my baby, my baby, mmh

Not really sure if it's right or wrong to be with you  
My baby, your loving makes me crazy, oh it feels like a natural high  
Just wanna be around you all the time  
Should I pursue my love for you, baby

Didn't know that I could need someone this much  
So please tell me now, show me, how, how you feel me there inside  
Didn't know I would need someone this bad if it is a crime  
I wouldn't mind if it feels like drifting to another place in time

Talk about us, my love, baby  
Let's talk about us and trust, ooh, ooh  
Let's talk about us, my love, ooh-ooh-ooh, ha

It's been a while since I held your hand in mine, hm  
My baby, I miss the way your loving, how it felt like a natural high  
Wish I could still be with you all the time  
Oh how I love you my baby, whoa-whoa-whoa

Every now and then I try to wipe my memories of you  
But I can't conceal it every time I'm thinking of you  
Every time I'm dreaming of you, baby no  
If you call me then I would just be right there  
Coming back to you (coming back to you)

Didn't know that I could need someone this much  
So please tell me now, show me, how, how you feel me there inside  
Didn't know I would need someone this bad if it is a crime  
I wouldn't mind if it feels like drifting to another place in time

Talk about us, my love, baby  
Let's talk about us and trust, ooh, ooh  
Let's talk about us, my love, ooh-ooh-ooh, ha

Please no more fantasies, I want you here with me  
Baby all I really need is for you to come back here with me  
Oh put your hand in mine  
Come on please, time to just leave this all behind  
I'm one call away (one call away) from coming back right for you, ooh

Don't need more fantasies, I want you here with me  
Baby all I really need is for you to come back here with me  
Oh put your hand in mine, and I will never leave this all behind  
Oh, my heart won't let me forget you

My baby  
Whoa, let's run away  
I don't wanna wait for some day  
'Cause no matter baby what we do  
Time just brings me closer to you  
I wanna be with you  
'Cause me my life is only making sense

When I'm with you, my baby  
Let's talk about us
