

Undeniable

Kyla

Well here we are
Face to face
It still feels like the first day
When I met you
Your beautiful voice filled up the room

I still remember
Its still so familiar
We were younger then
Still I can't pretend
Its still lingering
I wonder what could have been

This love is undeniable
We could've been
The perfect couple
So undeniable
So undi
So undeniable
You and I
So undeni
Undeniable
You and I
We can't deny
We're Undeniable

I must admit
I do regret
Not letting you know I fell for you
I had a girlfriend
And I didn't want to disrespect

I still remember
I was so under pressure
What was I to do
You didn't make a move
I wanted you to pursue
Now you know the truth

This love is undeniable
We could've been
The perfect couple
So undeniable
So undi
So undeniable
You and I
So undeni
Undeniable
You and I
We can't deny
We're Undeniable

You and I we were younger then
We could've been
You and I we were younger then
We could've been
You and I we were younger then

We could've been
You and I we were younger then
We could've been
