

Anything

Kyle Echarri

Sunday morning light
I can see your face upon the pillow
It's getting late outside
I don't wanna go, let's just take it slow
Is this what it's like to feel like falling
Cause there's a world outside

But I don't care 'bout
Anything but you and me
And all the things that we could be
And I don't know much about where I'll be
Cause I don't care about anything, about anything but you and me

Your my one way flight
To a place I've only been while sleeping
A stellar paradise, we won't need a mask
If you breathe with me
Under a sky of diamonds falling
Lost in the lights and I don't care

About anything but you and me
And all the things that we could be
And I don't know much about where I'll be
Cause I don't care about anything, about anything but you and me

You and me
I don't care 'bout anything, 'bout anything
But I don't care 'bout anything
I don't care 'bout anything but you and me

And all the things that we could be
And I don't know much about where I'll be
Cause I don't care about anything, about anything but you and me

You and me
You and me
